CLASS DESCRIPTIONS

Ballet is the foundation for all of dance. It promotes physical strength and agility, can boost concentration, develops and understanding of music and rhythm, and generates a love of movement.

Turns, Leaps, Tricks this class is for the advanced dancer and focuses on proper technique for turns, leaps and a variety of technical dance tricks and it is designed to challenge students in those areas.

Dance Collaborative Dancers build on their Modern Technique with a general focus on the 'art' of dance. Dancers have the opportunity to grow in their Choreography and Improv skills and pursue collaborating with other artists in the community.

Musical Theatre will expose students to Jazz, Ballet, Lyrical, and other styles found in Broadway Musicals. We are going to have an original holiday production that features all of our Musical Theatre students.

Modern is a contemporary dance form that builds physical awareness and proper alignment and helps to improve directional changes, core strength, and performance quality.

Tap is the natural partner to Ballet with an emphasis on rhythm and intricate footwork. It increases the student's awareness of musicality and coordination.

Jazz is a dance form enhanced by the freedom to use movement with a variety of music styles. Like all dance forms, Jazz comes from Ballet as it requires having a strong center and excellent balance.

Hip Hop is a current style of Jazz that includes some of the latest moves seen in films and on television. Hip Hop includes some of the technical aspects of Jazz, but is much more of a styling dance class.

Pointe is for ballet dancers that have completed the Pointe Workshop and evaluation process at Prima. Students will wear pointe shoes during this class and will work on technique and strengthening exercises specific to pointe dancers.

Contemporary is a style of expressive dance that combines elements of several dance genres including Modern, Jazz, Lyrical and Classical Ballet. Contemporary dancers strive to connect the mind and the body through fluid dance movements.

Lyrical/Improv A. We have found that so many auditions require a lot of Improv and we wanted to provide students with a way to grow in those skills while continuing to work on their Lyrical skills.

Acro is a fusion of classical dance technique and acrobatic or gymnastic elements, blended in a dance context. Our Acro teachers are certified by Acro Arts and focus on the 5 pillars of Acrobatic Arts in their classes: Flexibility, Strength, Balancing, Limbering and Tumbling.
